Re: Doe v. Kusum, 07 CV 8479 (AKH) (KHD)

To the Docket Support Unit:

I am the Assistant Corporation Counsel in the office of Michael A. Cardozo, Corporation Counsel of the City of New York, who is handling the above-referenced case.

I write to ask that error notations be placed on the docket entries for three documents in this case that were filed incorrectly and were subsequently re-filed correctly.

The incorrect filings are documents 4, 5, and 6. The correct re-filings are documents 7, 8, and 9. I ask that error notations be placed on the entries for documents 4, 5, and 6.

The erroneous docket entries were a result of the ECF system not recognizing plaintiff's Order to Show Cause for a preliminary injunction, document 2, as constituting a motion. As a result, the system would not allow two declarations to be classified as being in opposition to a motion, and I filed them as "answers" solely so as to file them by the October 9, 2007 deadline.

I was advised the next morning by the ECF help desk how to work around the supposed lack of a pending motion, and the documents were re-filed as being declarations "in opposition (non-motion)." In addition, the system allowed me to note that one of the declarations, document 8, was related to the City's "response to order to show cause," document 7, although not allowing the same notation for the other declaration, document 9.

Thank you for your consideration in this matter.

Respectfully submitted,

Louise Moed
